

This 22-page PDF can be used along with the video.

This PDF has 5 parts.

Part 1: Blank Pages with a Small Model

Part 2: Outline Version of the 3D Number 2

Part 3: The Date – (version #1) – 2.22.22

Part 4: The Date – (version #2) - 2.22.2022

Part 5: Simply 22

This PDF is simply an additional, optional resource.

One of the challenges at the end of the video is to use color to show the way that you see the structure. These pages may be useful for that challenge. Of course, there may also be many other creative ways to use these pages.

You may use the entire document. Most likely, as you glance through it, you'll see a particular page that you would like to use. Feel free to use any or all of the pages. They can be displayed, printed, and passed out to your students.

Also, you may can enjoy watching the video without using any of these pages. After all, it was designed to be used with simply pencil and a blank piece of paper.

These are simply here in case they are helpful to you in any way.

Enjoy!

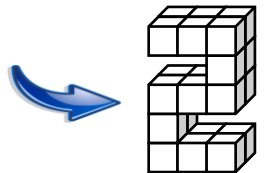

Part 1

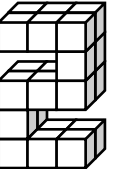

Blank Pages with a Small Model

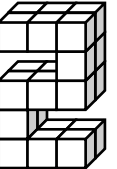

The first pages are blank.

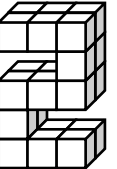

That is because the video shows how to draw a 3D number 2 on a blank piece of paper.

What is unique about these pages is that they include a small model in the corner.

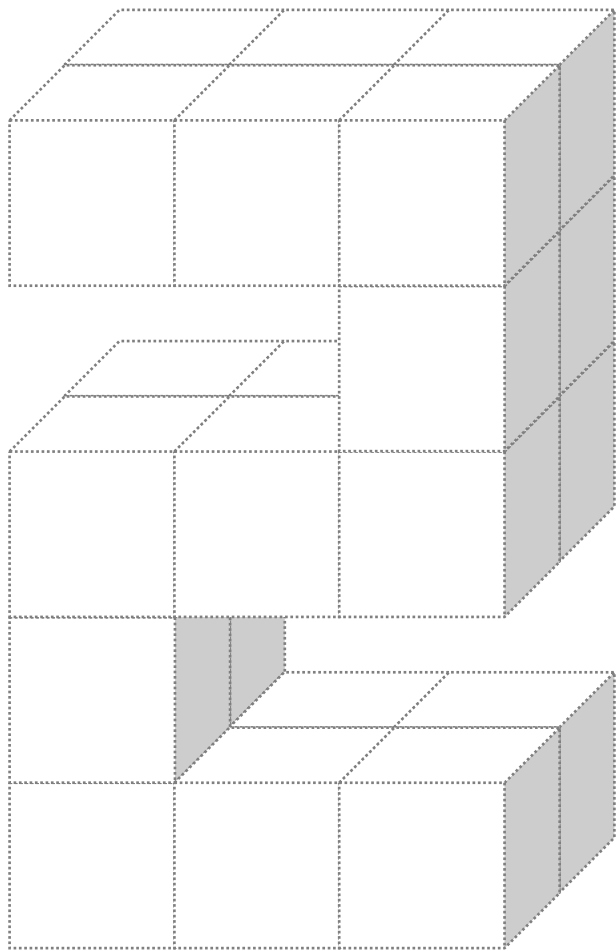

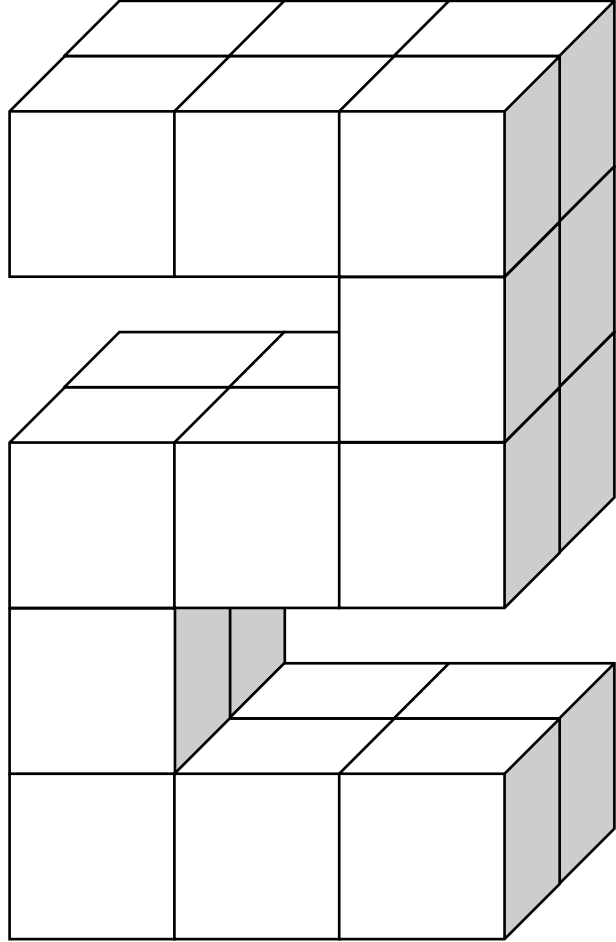

Part 2

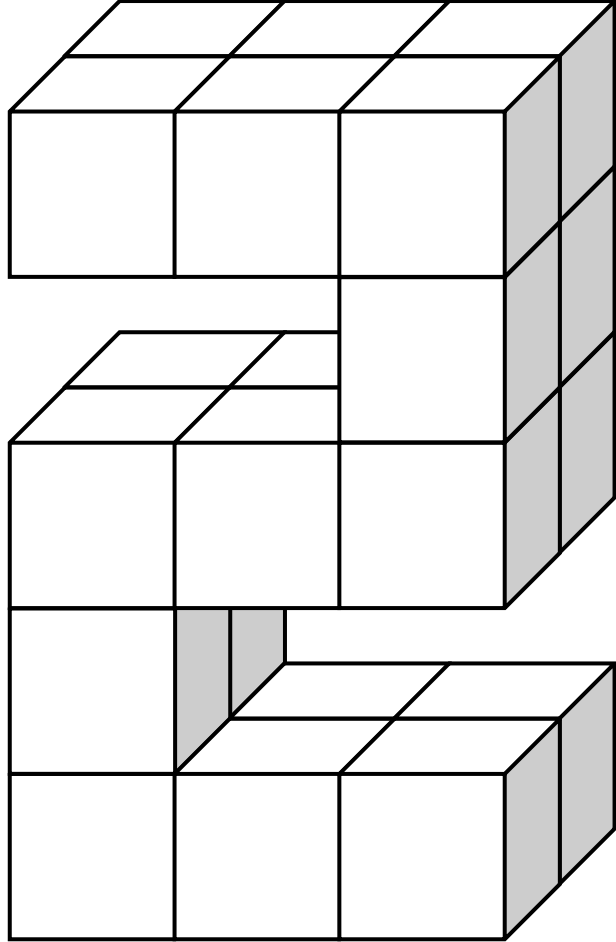

Outline Version of the 3D number 2

The next 3 pages are the outline of the shape.

Notice that there are 3 different weights to the lines simply to provide you with options.

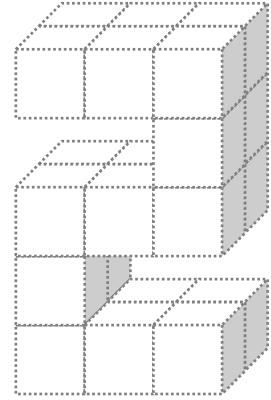

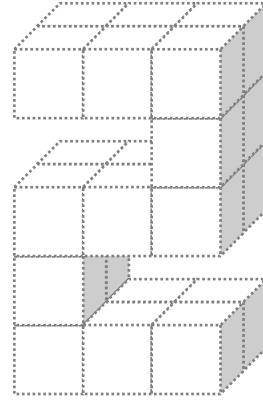

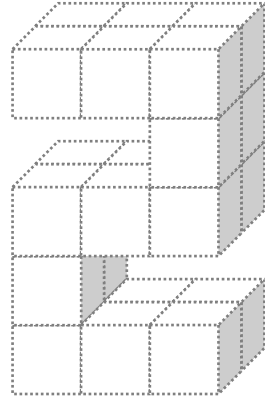

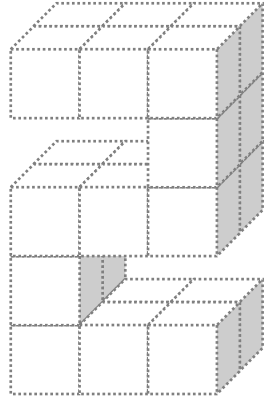

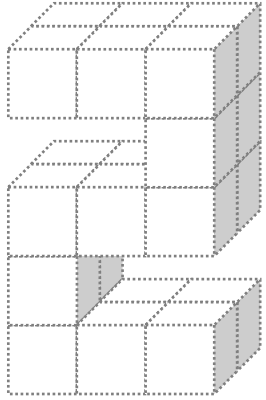

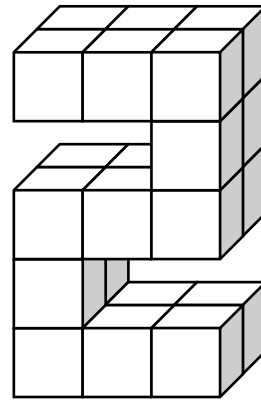

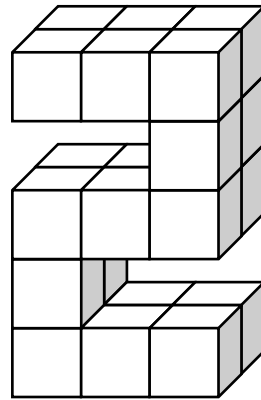

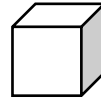

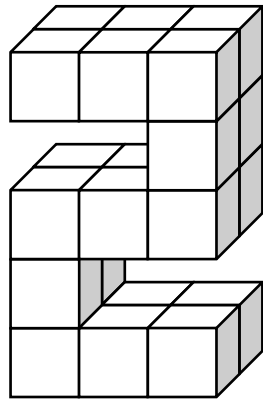

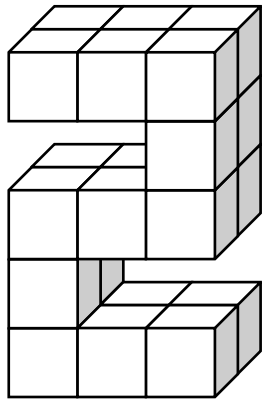

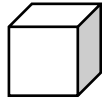

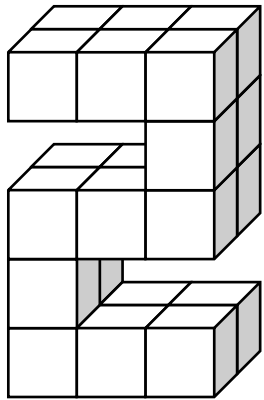

Part 3

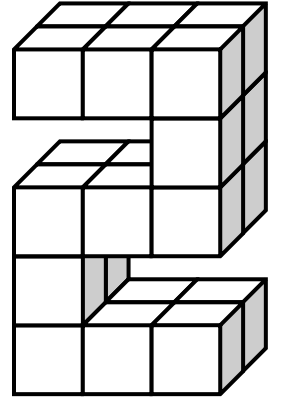

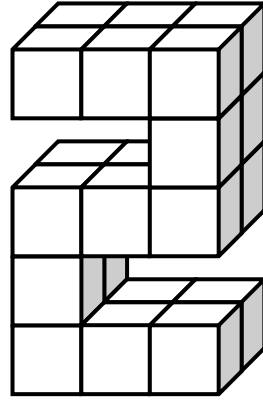

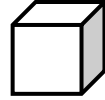

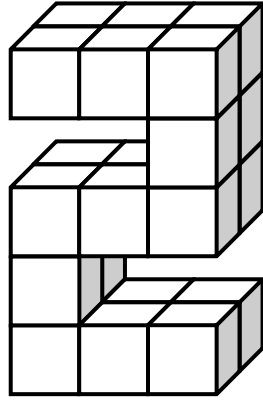

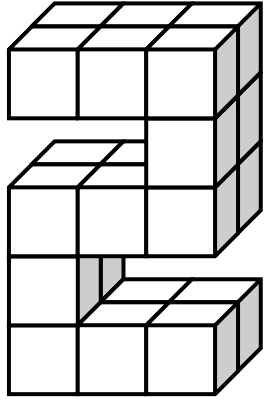

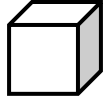

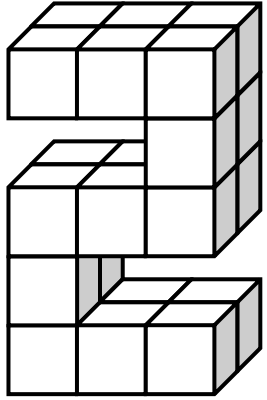

The Date – Version #1

The next 3 pages feature the date 2.22.22 made out of the 3D drawings.

Again, notice that there are 3 different weights to the lines simply to provide you with options.

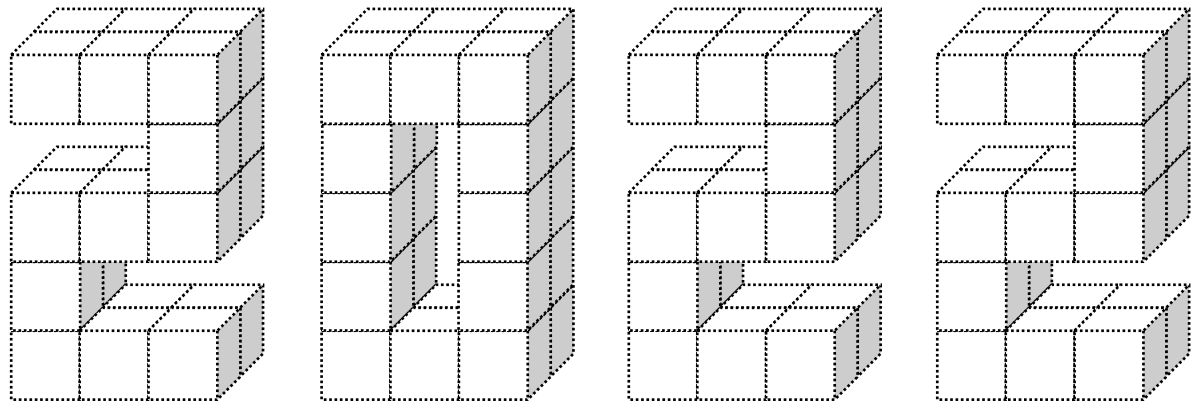

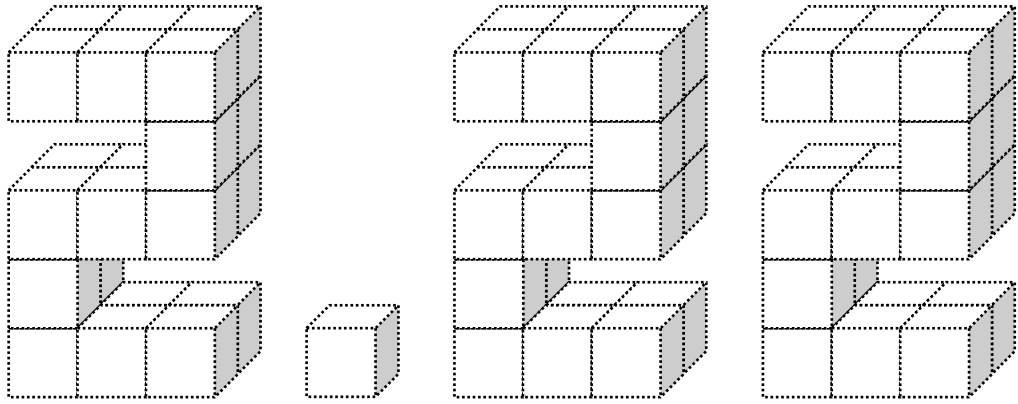

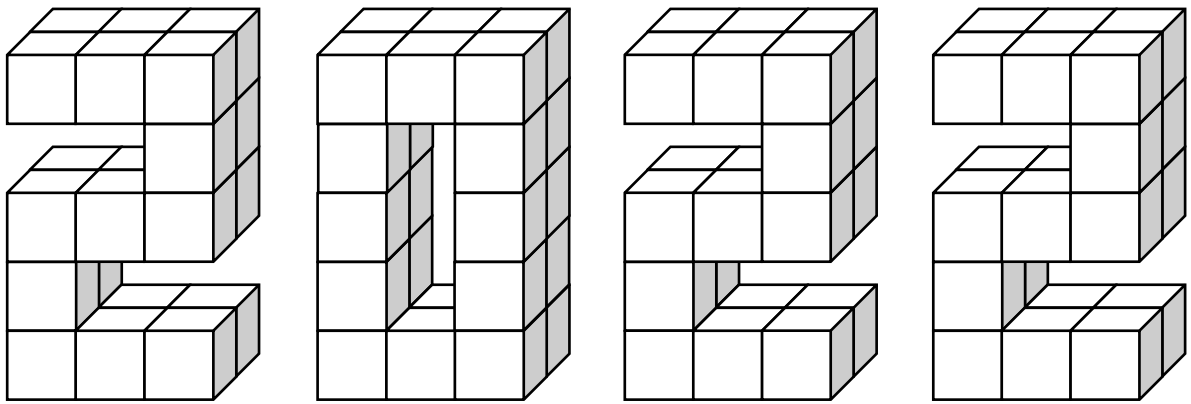

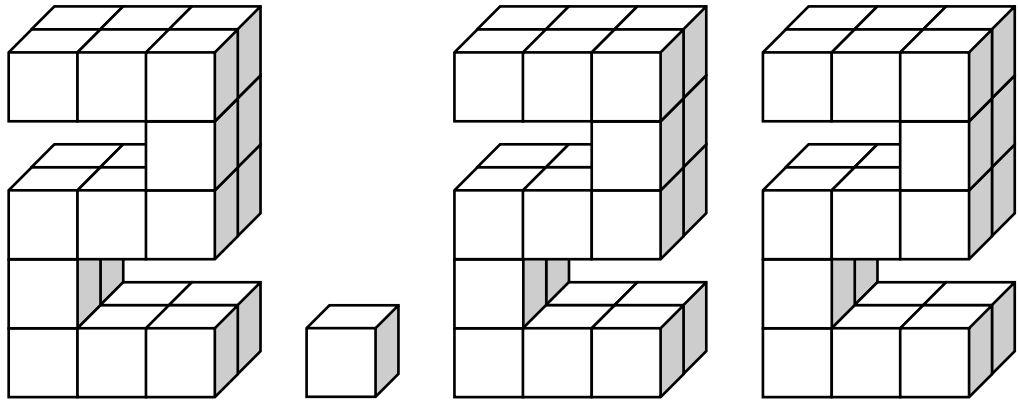

Part 4

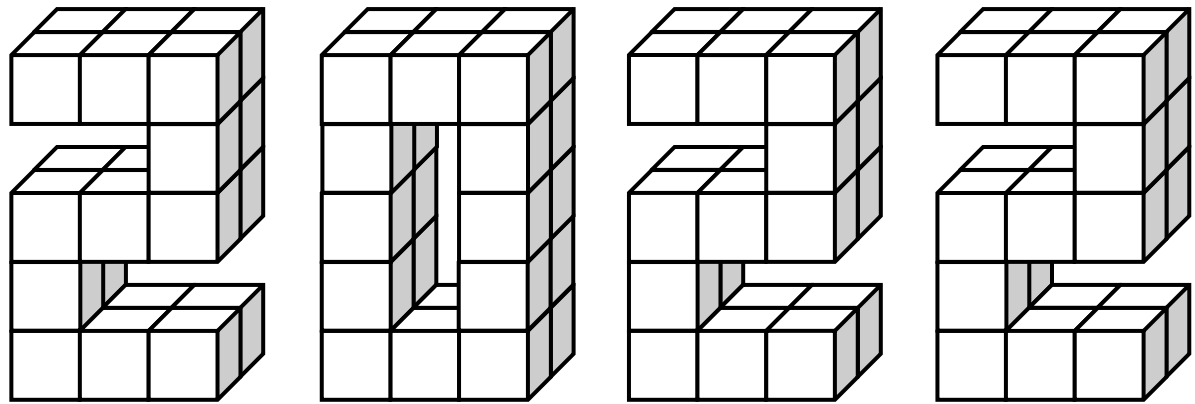

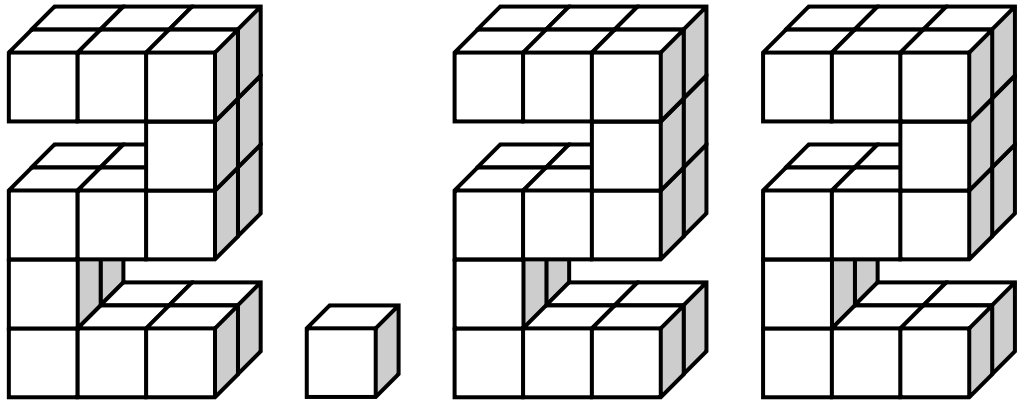

The Date – Version #2

The next 3 pages feature the date 2.22.2022 made out of the 3D drawings.

Again, notice that there are 3 different weights to the lines simply to provide you with options.

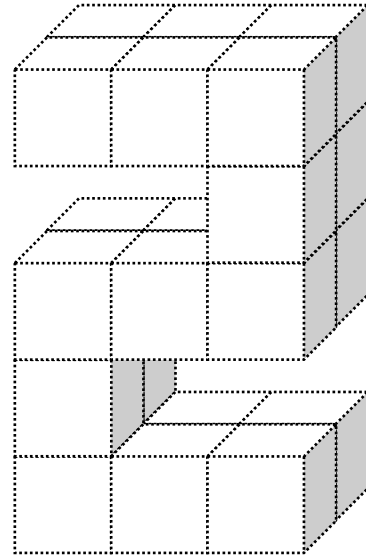

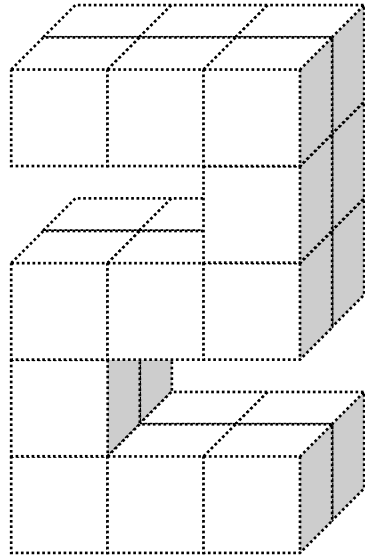

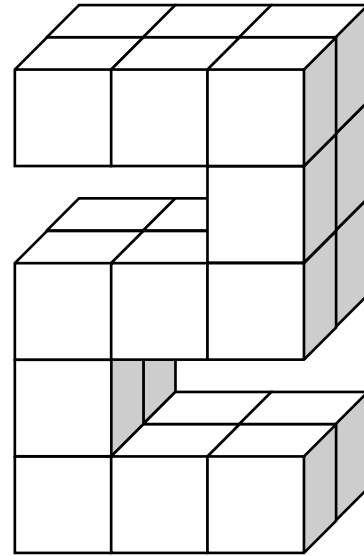

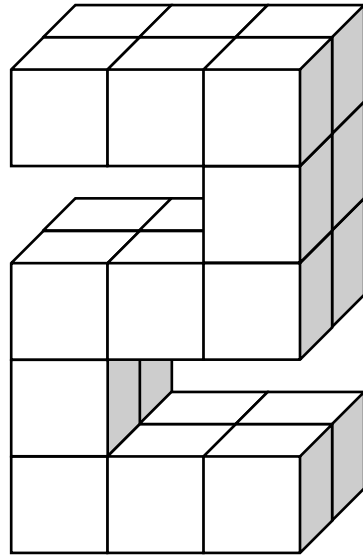

Part 5

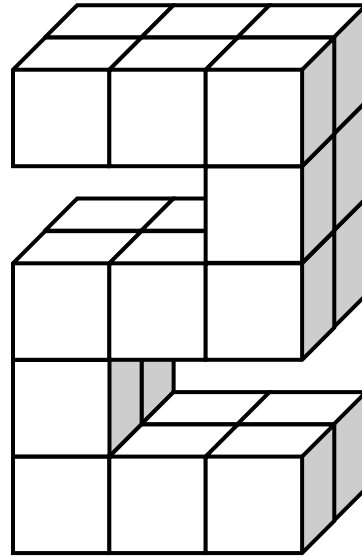

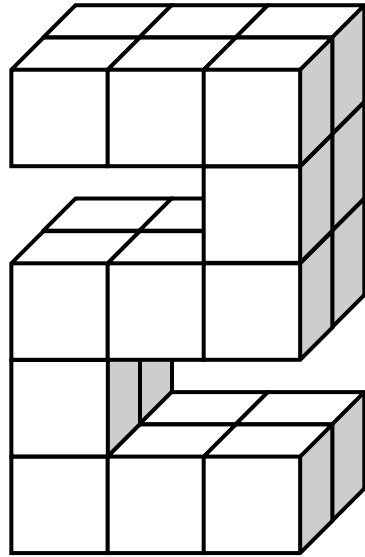

Simply 22

The next 3 pages simply feature the number 22.

Again, notice that there are 3 different weights to the lines simply to provide you with options.
